Safely Clip Tiny Nails With The Baby Light & Clip

At last, parents have a safe and painless way to trim baby's nails! Too often worry and challenge of trimming our baby's nails; no more with the Baby Light & Clip.

We were very surprised how easy this Lighted Nail Clipper illuminates from baby's tiny nail, and helps take the guesswork out of where to safely clip. It has been stressful and nerve racking trying to clip an infants nails. You think everything is going well and then one slip and you've clipped too close. The baby cries, your moments pass before you both calm down, but the fear of doing it again remains.

Did you know?

Did you know that top Pediatricians suggest trimming your child's nails while they sleep? Of course, we missed this memo when our children were little. The last thing you want to do is hurt your child. And now parents and care givers can have one less worry about when caring for their children.

The part we love most is that the Baby Light & Clip has specially designed features that help prevent tiny fingertip from going between cutting blades. This unique design also features a Nail Clipping Tray that helps keep clippings from falling into the baby's bedding. The Comfort Control Handle is designed to fit comfortably in your hand for easy holding and maneuvering. And, with its small size and handy Travel Case, the Baby Light & Clip is great for families on the go!

Designed for children ages 0-10, with built in safety features, the Baby Light & Clip is a wonderful gift for parents and bridal showers. To learn more about the Baby Light & Clip, which retails at \$10.99-\$19.99, visit: www.babylightandclip.com.
